Algoritmo de búsqueda

Busqueda

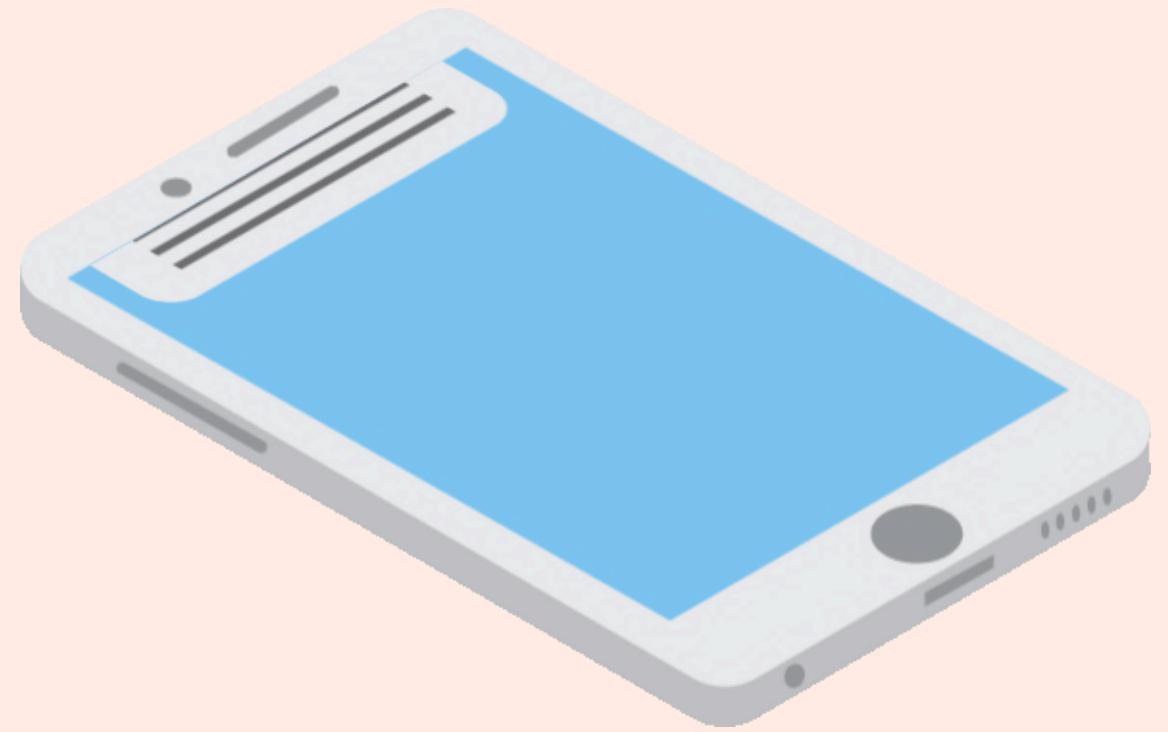

El programa realiza una búsqueda por profundidad para encontrar combinaciones de cuatro prendas, una para cada tipo, los cuales son:

- cabeza
- torso
- piernas
- zapatos

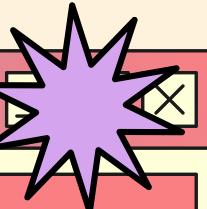

Una vez encuentra una combinación entre las opciones disponibles genera una pinta que evalúa en un paso más adelante.

Lógica y base de conocimiento

2

El programa utiliza la logica para descartar todas las prendas que no tengan el mismo estilo que el deseado.
